

# CIRCUMCISED PENIS 101

Most circumcised men can't imagine circumcision being an erotic topic for uncircumcised guys. Uncut guys often have deep desires to be circumcised, and some yield to adult circumcisions. The traumatic stories uncut guys tell in adult magazines always remind me of some events that happened to me back in college.

Being a Nebraska farm boy, and uncircumcised, fitting in at an ivy league college like Yale was hard. Greg, my only initial friend soon talked me into my first male sexual fondling venture.

Once he found out all about my foreskin hang-up and my circumcised penis curiosities, Greg said, "Three of my circumcised buddies have a plan that dupes uncut guys into sucking them off. They say making an uncut guy do it is good for him. It makes him appreciate circumcised penises and shows him why he should be circumcised. They specialize in convincing uncut boys here on campus to get circumcised and claim their "Circumcised Penis 101" course never fails to leave uncut boys begging to be circumcised. I've told them your foreskin embarrasses you, and how circumcised cocks intrigue you so they're eager to do it to you. I think it's just what you need. "

Just hearing what the "Circumcised Penis 101" course entailed when he described it, and picturing them doing it to me, made me ejaculate in my pants. Although I was angry, he'd already told these guys about me, I remember almost begging him to get them to give me their course right away. He laughed, "I want them to do it to you too. They knew about you before and told me to warn you that you were already next on their list, so expect a visit soon. "

For days any thought of them knowing I wasn't circumcised, and the mere notion I was next, excited me so much I'd get an erection, and ejaculate. I was scared but could hardly wait for them to visit me.

A week later they came to my room, and it happened. I got hard the instant they locked my door. One guy began, "I'm Ron, meet Tim and Bob. We're alone now, you know why we're here, and we've made sure we won't be disturbed, so I hope you're ready. "Patting my bulge, he then said, "If you knew how nice a circumcised penis is you'd already be circumcised. So welcome to `Circumcised Penis 101' class where we are going to convince you to become a real man - a Circumcised Man!"

I was more than ready as he then tore my underpants off. Seeing my foreskin nipple protruding beyond my erection, he pinched my foreskin flap, and laughed, "With all this skin you truly need our lesson. We heard you had a long foreskin, but you are the most UNCircumcised guy I have ever seen. "I'd only seen a few, but knew he was right.

He went on, "We've got the finest circumcised penis specimens on campus, and I know when we're done you'll be glad we did this. "I'd often fantasized about trying bi-sex with a circumcised guy. As they stripped, the reality it was now happening with three, really excited me. When I saw their enormous perfect shaped cocks, I fell docile to their every wish. So, as they pushed their erections at me with their hands on their butts, telling me to feel them, I eagerly obeyed.

Their big glans and bulging veined shafts felt great! Ron drew my foreskin back, saying, "Compare the assets of our circumcised penises to your pathetic cock. From being trapped under a nasty foreskin so long your glans isn't full, it has no ridge, it's sticky, smelly, and wrinkled. Our big plump, soft, dry glans, look, feel, and smell far nicer. But the most valuable part is they taste much better. That is what you really need to learn. To see just how great circumcised penises taste, you need to suck our three until we all ejaculate. "

I was so horny then I didn't resist. Hugging Bob's butt, I began sucking his gorgeous circumcised cock wildly. I soon felt a rush of ecstasy as he ejaculated in my mouth. It tasted just super! I then sucked Tim and Ron off the same way. Ron's cum still covered my lips as he laughed, "I ask if you liked it, but you didn't fight it like most guys, and I can tell you loved it. Now you know just how nice circumcised penises are you want yours circumcised, don't you? "I really did, and nodded timidly.

Leaving, Ron laughed, "No need to thank us, it was our duty, and we enjoyed our mission. "Then Bob hollered back, "By the way, thanks for the great blow-jobs. We'll be back for more again soon. "

The look, feel, and taste of their great circumcised penises left me unbearably excited. I was completely overcome with emotions. I was happy, sad, ashamed, embarrassed, very relieved, and joyous all at once. Happy to now know the splendour of a circumcised penis, sad mine wasn't, ashamed to be uncircumcised, embarrassed by what they'd done to me, relieved it was over, but joyous it had happened. Right then, with my foreskin still drawn all the way back tight I almost looked circumcised. As I stared at my erection, wishing that it were circumcised, I ejaculated without even touching myself, just like I'd done before each time I'd anticipated them doing it to me.

At that moment I wanted to be circumcised more than anything. I'd have let anyone circumcise me in a heartbeat that night. Yet, having finally felt and tasted circumcised penises gave me amazing pleasure and contentment. I loved sucking my first cocks and knew I'd gladly do it to a circumcised one again. I didn't have to wait long.

Shortly after they left, Greg came back in, and said, "A couple of your `Circumcised Penis 101' teachers just told me how much you liked learning your valuable lessons, and how easy you were. They said you didn't fight a thing, and that you sucked their cocks off better than any girl ever had. I'm glad to hear you like sucking cocks so much. "

Then dropping his pants, he added, "So, would you like to suck one more circumcised cock tonight? After all, it's the least you can do to thank me for arranging tonight, isn't it?" Knowing my answer, he began rubbing his cock head on my lips. Without a second thought, I sucked him off as eagerly as I'd sucked the other three guys.

After Greg left, I turned my light out, feeling my night's ventures were over. But my roommate came right in and knelt down beside my bed. When I asked what he wanted, Jay said, "Oh, I think you know, I heard about tonight. "Slipping his hand under my sheets, he squeezed my cock, and said, "Now it's my turn to play with your odd cock, and when I'm done you can suck me off too like you did those other guys. "

I'd seen my roommate naked before, but never with an erection. So, when he dropped his pants, I was amazed how truly large his hard cock actually was. His cock was really beautiful. I plunged forward and sucked him off just like I'd done with all the other guys that night.

I then felt very peaceful as I cried myself to sleep with tears of joy. I was so happy right then, but my adventures weren't over yet.

The next day Greg came back, and said, "Your teachers say you were a good student, but you didn't learn their whole lesson. Now you'll need their `advance' course. "He went on to say they'd suggested he help them with my "advance" course. He jokingly offered to tutor me as much as I'd need. Of course, I knew what the "tuition" would be.

My first "Circumcised Penis 101" lesson had been fun. It was very enlightening, made me consider a circumcision, and fuelled my bisexual interests. So, I was very eager to have them all come back to give me enough lessons to "leave me begging to be circumcised" as promised.

As it turned out I ended up having them come back for six more of their lessons. Each one excited me more and gave me better insights to how great a circumcised penis is. By the end of the third lesson, they indeed had me begging to be circumcised, and after six lessons I set up an appointment with a doctor, and got myself circumcised.

I always knew their "Circumcised Penis 101" lessons were just a way for them to tease me about being uncircumcised, and to use me to suck them off. But they enlightened me to great pleasures, and started my rewarding bisexual lifestyle. The graphic memory of those sessions is still enjoyably vivid. I gained a true passion for circumcised penises from them, a perpetual thirst for circumcised penis sex, and they

were the catalyst for me enjoying my insatiable appetite for sucking many more since. If they indeed wanted to teach me to idolize circumcised penises, they most certainly did it. I am eternally grateful they did it to me. I must say I love circumcised penises, and I'm glad I have one of my own now.

I can truly relate to all uncircumcised men and know the trauma of being uncircumcised in our society. I pity men circumcised at birth because they'll never know the incredibly intense ecstasy of a foreskin during masturbation. During adolescence when regular sex is either not available, or inappropriate, there is nothing better for masturbation pleasure than a nice foreskin. However, once a man reaches adulthood, I think he should get circumcised.
