## **WHAT IS A GLORY HOLE ?**

A Glory Hole is a hole in a wall, or door, often between adult video arcade booths for people to engage in sexual activity or observe the person in the next cubicle get off.

Glory Holes have been a staple of the underground sex world since the 60's. I haven't been able to find an exact date when they become popular but I do know it is one of the best public sexual experiences one can have. While men have various reasons for enjoying sex through a Glory Hole, I will detail a few that come up in discussions.

## **WHY IT'S HOT**

### **IT'S ANONYMOUS**

There is something about doing something that you are not supposed to. One night stands can create great memories for years to come. And the Glory Hole takes it to the next level. It is completely anonymous. You don't have to know the person on the other end. Many don't ever see them. If you want to enjoy a warm mouth sucking your dick until you bust, just stick your dick in the Glory Hole. It's that simple.

### **SIZE DOESN'T MATTER**

Men are visual creatures. The mainstream gay culture is obsessed with the physical form. While some men take the attitude to go along to get along, others don't have the ability to spend hours in the gym just to get some sexual attention. The Glory Hole is an equalizer. Men that love to service are not interested in your waist size. Simply slide your cock through the hole and receive all the attention you desire. If you are looking to taste a thick veiny dick, then you can have all you want without having to measure up to appearance standards.

## QUICKER THAN A HOOK UP

Online adult social networks were supposed to provide men with a faster way to get off. You played by the rules: wrote a great ad, uploaded pictures and logged on frequently. Unfortunately, you have to consistently play email tag with men that aren't sincere in their desire to meet up. Why continue the hassle when you can go to the Glory Hole ? Glory Holes provide a hook up in the immediate now. You don't have to trade emails, chat endlessly and answer hundreds of questions. You are in one booth, he is in the other. Each has what the other is looking for. It's time to play. I have gone to Glory Holes and receive some great oral sex in less than fifteen minutes.

## HIDING IN PLAIN SIGHT

At one time, it would be very difficult not to find a Glory Hole. The traditional video booths have now received cosmetic upgrades. The movies are digital, new booths only take dollar bills and the Glory Hole is getting harder to find. But if you know where to look, you can find them.

## SURF THE WEB

Glory Hole lovers have taken to the fetish, organized it and made a community. There are directories that list Glory Holes. These websites are constantly updated by users with detailed reviews that provide everything you need to know before leaving your house.

**Squirt.org** is the premier website to find Glory Holes. You can search by city, state and country. Directions, costs and important information is listed. I highly recommend reading through the reviews under each listing. They will give you a sense of what to expect. But take this information with a grain of salt. There have

been a number of men who have said a location was bad because they didn't get any sexual attention.

## BE HASSLE FREE

When contemplating a location for Glory Hole sex you should focus on location, activity and staff. Only visit stores that are in safe neighborhoods. The activity of the Glory Hole is important. Some places are very active during lunch time while others are busy during the night. Always select based on the time you have to play. Police activity is something you must consider. There are some Glory Holes that have been targeted in major cities. The staff of the book store is a major consideration. You want to select a store with staff that don't harass the patrons. It is acceptable for a clerk to tell the patrons to spend money and not stand around. But some clerks go overboard. In my experience, gay clerks are the worst. They are trying to get dick while earning a paycheck. And if they can't, they don't want anyone to get off. This is where the reviews are valuable. Members of Squirt.org always inform others when they come across a bad clerk.

# TOOLS OF THE TRADE

## WIPES

Clean sex is the best. You don't want to bring any germs home. Be sure to wipe down the wall surrounding the Glory Hole and inside of the hole. Most adult bookstores don't sanitize the booth's interior. Extra caution is advised for booths that are painted black because you can't see how dirty they are. I use the Huggies brand because it does a great job of cleaning and are gentle enough for my body after orgasm.

## CONDOMS

I don't use condoms for oral because I need to feel every bit of wetness available at the other end of the hole. Use condoms for oral sex if you want to be extra careful. I suggest a flavored condom. Men don't like the taste of plastic. You may be rejected by the guy on the other end when he sees your plastic covered dick. Should this happen to you, simply leave the booth and wait for another opportunity. Anal sex does happen in a gloryhole. Having condoms available keeps you prepared.

## LUBE

If anal sex happens at a Glory Hole, then sex lubricant must be on hand. It is best to the premium water based lubricant **JUS**. It feels silky , lasts longer and cost less than the leading brand you are currently using. The anal experience should be as interruption free as possible. **JUS** will provide a smooth glide for the entire session. Be sure to use an anal douche before coming to the Glory Hole if you are looking to get fucked. Not only is it unsanitary to shit in a video booth, its also bad sex etiquette. You know you want dick, be prepared to take it.

## MONEY

Adult bookstores in a number of cities charge a door fee to enter. You are given tokens in exchange to put in the machines that keep the videos running. Be sure to purchase enough tokens to cover your entire session. It's a hassle to be enjoying a hot movie, feeling pleasure from the Glory Hole and then hear silence when the movie stops playing. And if you are at a store that is frequented by gays, you will definitely attract an audience with ears to the booth trying to hear how good it is.

Keep your play private by ensuring the machine is full once you have begun play.

## **GETTING SOME GLORY**

Whether you are looking to receive or desiring a meaty dick to feed the need, there are some simple strategies that will make the adventure hassle free. Men who live in major cities often find that connecting is much faster than those that live in rural areas. Should you live in a small town, I suggest that you find your nearest metropolitan city that has a variety of stores for you to choose from. There is nothing wrong with taking your desires on the road.

Arrive at least thirty minutes before the place gets busy. Check for any pin holes in doors that could provide a show. There are two different techniques that can work for making a connection. Let's briefly discuss them.

## **READY TO RECEIVE**

This strategy is perfect for the man that loves to serve. You will need large amount of tokens or dollars to keep the machine flowing. Once the booth store begins to fill up with guys, you simply go into the booth and wait for someone to enter. After he enters the booth and closes the door, simply rub your index finger along the rim of the Glory Hole. This will let him know that you are ready to receive. Wait a few moments, he may be nervous. Rub your index finger along the rim another time. If he is interested, he will place his dick through the hole for you to enjoy. If you are feeling freaky, you can squat down in front of the Glory Hole with your mouth open. It will be hard for him not to fill it with something hard. It is best to keep the movie playing in order to signal that you are available. You may have a number of men that will walk in the booth, peak through the hole and leave. They are not serious and might even be bottoms.

## **TASTE THIS TOP**

I thought about this method from watching men that had limited time hook up effectively in rural areas. Walk into a booth equipped with a Glory Hole that has another person on the other side currently watching a selection. Place your money into the booth. Stand in front of the Glory Hole and slowly massage your dick through your pants. Wait a few moments for the buddy in the other booth to either rub his finger in the Glory Hole or need down to be fed. Once ready, slide your dick in the Glory Hole to enjoy some oral action.

## **NO BOOTH BUDDY ?**

There will be times when you enter an adult book store and its full of men who are either hugging the walls .

Are you selective about who sucks your dick ? or Is there a specific man in the store that you want to get with ? If you are not selective then you can make a public display of your desire to receive oral sex. Rub your crotch or hold it while walking around. Your goal is to signal those men looking to give oral pleasure that you want to be serviced. Be observant of any signals: licking lips, a glance then putting his head down, him walking slowly behind you , etc. These are very subtle ways that you know you have made a connection. Once you have found someone who is interested, you go into the adult video booth to seal the deal.

There are a number of men who want to enjoy the Glory Hole but desire a specific person. This is an ideal situation that takes time and patience. When men are walking around the book store it takes effort to get a specific person to go in the booth with you. He may have reservations about people seeing him make such a public act or he could not be attracted to you. If attracted, he may wait until people are not watching to make a move. It could take an hour or more. If you have the time, go after him. But if you are looking to get off, find the guy that is ready to receive.

## PRIVATE HOLE AT YOUR SERVICE

There has been a new trend in the Glory Hole fetish: The Private Hole. Private Glory Holes are doors or any other structure made where a man can have the same Glory Hole experience in the privacy of his own home. The explosive growth has been fueled by erotic videos posted on **Xtube.com** . The raw passion that is exuded from these videos has encouraged men to make the investment.

Having a private Glory Hole has its advantages. You can live your fantasy on your own terms. There is no driving to an adult book store, spending money on videos and waiting to have sexual play. You simply market your Glory Hole through video, online classifieds or adult social networking sites and wait to be contacted. One may think that it can't be that easy to have sex but it is. The right video can definitely keep you busy. Could you imagine having men contacting you instead you going after them ?

Private Glory Holes are very inexpensive to make. If you are the handy type, you can go to home depot with measurements and have a door cut exactly to fit your need. You may get a few stares when you ask clerk at Home Depot to make a large hole at the center of a door.

If you don't have the courage to go that route but want a Private Glory Hole that is portable, I suggest you get a custom door by **Glory Holes Now** . They can fit in a standard size suit case, are light weight, adjustable, discreet and quickly assemble/disassemble. And it cost less than \$200 which equals twenty trips to most adult video movie theaters. The action one can get from a Private Glory Hole can be astonishing. I have seen men who would be overlooked in a book store enjoy the ability to pick and choose who they were going to engage.
